

# BRANACH

WORLD'S BEST SAFETY LADDERS

## ERECTING REAR RAIL

1) Lift rail and pull back latch on handrail. Rotate arms apart as shown.

2) Pass handrail arms around your body.

3) Rotate arms fully and reinsert mating pieces. Push together while pushing down.

4) Push down until mating pieces "click".

## RETRACTING REAR RAIL

1) Pull back latch and rotate arms upward.

2) Pass handrail arms back around your body and reinsert mating pieces.

3) Push down until mating pieces "click" and lay flat over front rail.
